Cost consultancy

Budget estimates

Cost input at an early stage will often determine the overall viability of a project and allow scheme design to progress in the knowledge that the estimated expenditure levels are acceptable.

In Building Consultancy Department we can provide: -

- Initial budget costs for either new build or refurbishment/fitting out works based on basic scheme parameters.
- Prepare detailed cost plans on an elemental basis on completion of the initial design.
- Provide continuous cost evaluation on the scheme through its progress on site.

Advice in relation to cost is an essential element to any construction work and Sanderson Weatherall can provide this by means of qualified professionals with experience in the field.

Sanderson Weatherall Building Consultancy have the expertise and latest cost information to assess the replacement cost of any building. It is vital that your property is accurately insured, thereby avoiding excessively high premiums and protecting against insufficient cover. Our valuations will include an allowance for demolition, site clearance, special location and geographical circumstances, professional fees and inflation.

Acting on your behalf we will: -

- Visit and measure the property.
- Consider the policy's existing conditions and provide advice.
- Prepare a report providing a recommendation of the minimum sum to be insured.
- Provide comment on alternative insurance options.

Sanderson Weatherall has provided insurance advice on a variety of buildings ranging from commercial property to Georgian mansions and Cathedrals.

Whatever the building you need insurance advice on - we are the people to contact.
